

Belle Vue Alderney, a new development of 5 luxury town houses overlooking Braye bay

*Distinctive
Collection*

Belle Vue Alderney

Belle Vue is a stunning new development of 5 town houses, located in a prime position on the crest of a hill overlooking the Butes, with panoramic views out across Braye Bay and the Harbour to the North and the island of Burhou to the West.

The development is within a 2 minute walk into town and the main high street, with shops, bars and restaurants, it truly is the perfect location.

The town houses have been built and finished to a very high standard throughout, creating a new and exciting place to live and call your home, in an amazing location.

Each house is built with sustainability and efficiency in mind, offering a luxurious yet responsible lifestyle. The homes have been built using sustainable materials and practices to ensure a low carbon footprint. From energy-efficient insulation to renewable energy sources, every aspect of these homes is designed to be eco-friendly, with durability and ease of maintenance in mind. These homes require minimal upkeep, allowing you to enjoy more time relaxing and less time worrying about home maintenance.

All bedrooms have en-suite bathrooms and fitted wardrobes as standard. Every effort has been made to create external terraces to extend the usable floorspace and make maximum use of the spectacular surroundings. A modern fitted kitchen with high spec appliances has been designed into an open-plan living space together with open links to external courtyards meaning there is no compromise on modern living requirements.

The homes have been created around a solid masonry core meaning they are well placed to perform well in the coastal environment of the island.
All homes benefit from private parking spaces.

We have transformed a historic seaside hotel into five extraordinary contemporary homes. Each property is fitted with state of the art solar panels and air source heat pumps, providing sustainable underfloor heating throughout.

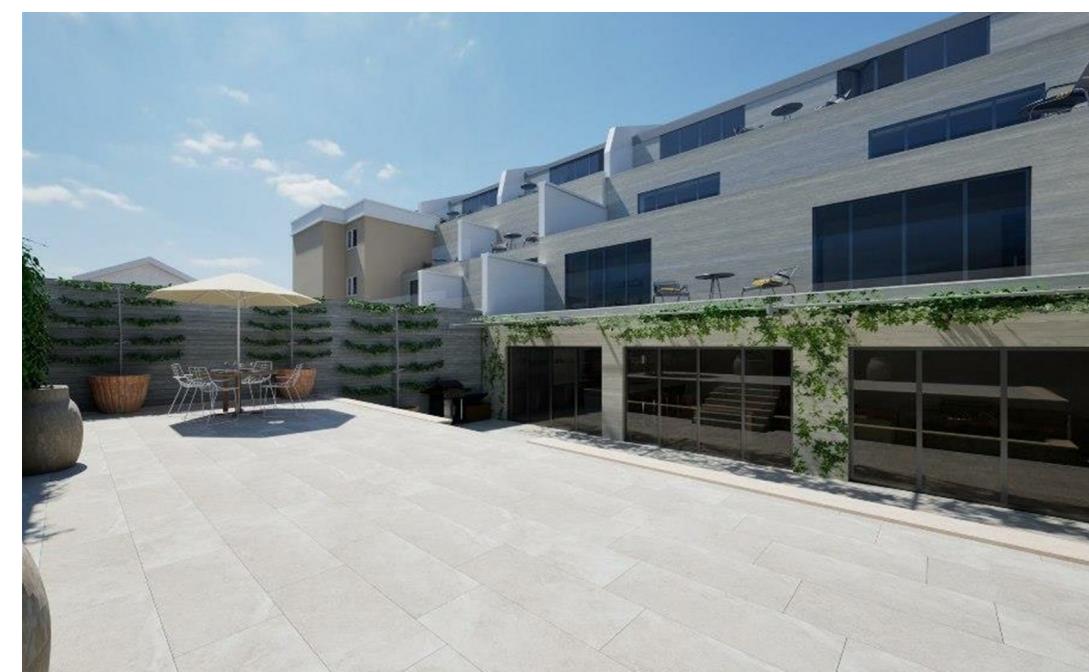

On the rear elevation we have implemented a tiered roof terrace design to maximise space and optimise the panoramic coastal views, creating the perfect blend of luxury and environmental responsibility.
